

MD CANI – The 1st 75 Days

CASE SCENARIO

Handout Number Six

CASE PLAN AMENDED FOLLOWING DISPOSITION HEARING, UPDATED AND FILED ON May 9, 2019.

- Step 1. Obtain a substance abuse assessment and follow all recommendations.
- Step 2. Random drug screening not less than twice per month.
- Step 3. Attend individual substance abuse counseling twice per week and do a homework assignment for the counselor or a one-hour equivalent.
- Step 4. Attend substance abuse group sessions once per week.
- Step 5. Attend not less than three self-help groups per week.
- Step 6. Get a sponsor.
- Step 7. Observe one full day of adult felony drug court.
- Step 8. Obtain a psychological evaluation and follow all relevant recommendations.
- Step 9. Attend individual counseling by a master's level counselor trained in TF-CBT.
- Step 10. Continue medication management as prescribed.
- Step 11. Attend parenting class.
- Step 12. Participate with parent aide.
- Step 13. Get a safe and stable home suitable for Ms. Smith and all of her children to live.
- Step 14. Cooperate with DFCS.

Points for Discussion:

1. Is the case plan simple enough to be understood by all?
2. Is the case plan specific as to who, what, where and when?
3. Does the case plan allow for accountability?
4. Do all requirements in the case plan relate directly to the reason the child cannot be maintained safely at home?
5. If all of the steps are achieved, will the risk to the children be reduced to a level that will allow the children to return home?
6. Is the case plan do-able?
